RailsBridge Wellington

We're looking for sponsors for the 2018 installment of RailsBridge Wellington. Our events so far have introduced over 250 women to coding, many of whom have gone on to pursue further training or jobs in the industry.

Last April, we received almost three times the applications for the 50 attendee spaces. We also received enough sponsorship to run an additional "Supercharged" workshop. From tech newbies to designers to experienced developers looking to learn a new language, we hope to introduce as many people as we can to Ruby on Rails.

As a sponsor, you'll contribute to a phenomenal first impression of the tech industry. You'll also reach other local developers coaching the participants and you will be invited to take part in community events surrounding RailsBridge.

Sponsorship levels

RUBY $2000
- Primary Logo position
- Invitation to speak at the event
- Invitation to the post-workshop celebration event
- Job advertisements via social media and website
- Logo on website, printed materials, and t-shirts
